INTERNSHIP EXPERIENCE

Infosys Springboard 5.0 Internship (Autonomous Driving System)

Oct-Dec 2024

- Formulated a convolutional neural network (CNN) for traffic sign recognition using TensorFlow and OpenCV; boosted recognition accuracy to 98% on a diverse set of 10,000+ images.
- Optimized object detection model, decreasing inference time by 15% while maintaining 95% accuracy, ensuring faster real-time decision-making capabilities within the autonomous navigation system.

Full Stack Web Development Intern (AICTE Next Gen Employability Program)

Feb-Apr 2025

- Architected and deployed a full-stack web application using MongoDB, Express.js, Node.js, and JavaScript, streamlining data management for 500+ users and reducing data retrieval times by 30%.
- Delivered 10+ projects integrating backend data processing with Node.js and Express, improving server-side logic and reducing API response times by 35% for enhanced application performance.

PROJECTS

Hospital Management System (Core Java, JDBC, MySQL) | [Github](#)

2026

- Developed a Hospital Management System using Java, JDBC, and MySQL, managing 100+ patient records, appointment scheduling, billing, and secure staff authentication through a menu-driven application.
- Implemented CRUD operations, JDBC-based database integration, and PreparedStatement for secure SQL execution, reducing manual record management effort by 70% while ensuring reliable data handling.
- Designed a modular service-based architecture with 5+ service classes (Patient, Appointment, Billing, Login, and Database Connection), improving code maintainability, scalability, and simplifying database operations.

GURU99 Bank Automation Testing Framework (Java, Selenium, TestNG, Jenkins, Docker) | [Github](#)

2026

- Developed a Page Object Model (POM) automation framework with 25+ reusable classes to automate 8+ core banking modules, reducing regression testing effort by 85% and improving code maintainability.
- Automated 12+ functional and negative test cases using Selenium WebDriver, TestNG, and Apache POI, validating 100+ test data combinations and achieving a 100% test pass rate with zero execution failures.
- Integrated Jenkins, Docker, GitHub, Extent Reports, and TestNG Reports for CI/CD automation, generating detailed execution reports with logs and screenshots. Reduced manual testing effort by 80% and debugging time by 60%.

SKILLS

- Programming:** Java, C++, Python, JavaScript, HTML, CSS, SQL
- Frameworks:** Selenium, TestNG, Cucumber, JUnit, React.js, Node.js, Express.js
- Machine Learning & Data Science:** TensorFlow, Keras, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn
- Databases:** MySQL, MongoDB
- DevOps & Tools:** Git, GitHub, Jenkins, Jira, Docker, CI/CD Pipelines, VS Code, Eclipse
- Coursework:** OOP, DBMS, Data Structures & Algorithms, Computer Network, Operating System

EDUCATION

Bachelor of Technology (Computer Science & Engineering)

HALDIA INSTITUTE OF TECHNOLOGY, HALDIA

2021 - 2025

(CGPA: 8.59)

Senior Secondary Education

D K C RESI HIGH SCHOOL NH-30 BHELAI BHOJPUR BIHAR

2019 - 2021

(74.4%)

Higher Secondary Education

ST PAULS SCHOOL G T ROAD SASARAM ROHTAS BIHAR

2018 - 2019

(88.6%)

POSITION OF RESPONSIBILITY

NEEDS (Head Of Public Relations, Content Writer)

2022 - 2025

- Organized charity campaigns and creative content initiatives to support underprivileged children.
- Facilitated group discussions and contributed to collaborative decision-making.

ACHIEVEMENT

- Winner of Internal Hackathon; Selected for Smart India Hackathon
- 2nd Prize in Inter-College Chess Competition (among 150+ participants)
